This is the first step towards the fully automated modular line. Composed by a processor (batch or incremental) equipped with a programmable automatic punching device and an automatic dryer, the Easy to Plate™ 1st step can be installed all at once or, thanks to the modular concept studied by Vianord, the machines can be bought separately and attached later on. The plate size usable with this project goes from 20 x 20 (8 x 8 inch) to the 90x 120 cm (36 x 48 inch).
